PROFILE

Final Year Computer Science & Business Systems student passionate about Cloud ,DevOps , Networking ,Frontend Development engineering. Proficient in [AWS, Google Cloud, OCI, etc.,] and holding a globally recognized certification.

SKILLS

- **Cloud Services:** EC2, S3, Lambda, Azure Functions, Google Compute Engine, Cloud Functions
- **DevOps Tools:** CodePipeline, Terraform, Docker, Kubernetes, Google Cloud Build, Jenkins
- **Networking:** VPC, Azure Virtual Network, Google Cloud VPC, Load Balancers
- **Databases:** RDS, DynamoDB, Azure Cosmos DB, Google Firestore, Oracle Database, MongoDB , Firebase
- **Frontend Tools:** React.js, JavaScript, HTML, CSS, Bootstrap, Git, GitHub, GitLab, Visual Studio Code,
- **Programming language :** C++, Python , Go

PROJECTS

AI legal Documentation website

Oct 2023 - Present

- Conceptualized an AI-powered platform for accessible legal support in India, targeting individuals and small businesses with limited legal resources.
- Successfully deployed a static website to Amazon S3 for high availability and scalability. Utilized DynamoDB for efficient data storage and retrieval within the application.

Cloud-native- Monitring app

JUNE 2024

- Built a Cloud-Native Monitoring Application: Developed a Python application using Flask to monitor system health (or replace "monitor system health" with the specific functionality of your application). Utilized AWS services for deployment, showcasing proficiency in DevOps principles.
- Implemented CI/CD Pipeline: Leveraged Docker for containerization and Kubernetes for orchestration on an Amazon EKS cluster. Employed Python scripting for deployment automation, demonstrating expertise in continuous integration and continuous delivery (CI/CD) practices.

EDUCATIONS

Gyan Ganga Institute of Technology and sciences

Bachelor of Technology (B.TECH) 2021 -2025

Branch : Computer science and Business system

EXPERIENCES

GGITS.ORG (COLLEGE WEBSITE)

Front-End Developer

- Contributed to the development and maintenance of the college's official website.
- Created responsive designs using HTML, CSS, and JavaScript to improve user experience.
- Collaborated with faculty and IT teams to update and enhance website functionality.

Anocab Electric

Web Developer

- Built and launched the official website for showcasing copper and aluminum wire products.
- Optimized the website for SEO to increase page reach and visibility.
- Integrated multimedia content like videos to enhance user engagement.

DesignSphere Labs

Cloud Engineer and Front-End Developer

- Designed and implemented cloud-based solutions for scalable web applications.
- Developed engaging UI components with React.js, JavaScript, and CSS frameworks.
- Assisted in integrating cloud services with frontend applications to enhance functionality.

Extracurricular Activities

- Webmaster of College GGITS
- Awarded by Rajay purskar by Governer
- Registered Startup (FOUNDER) at OPJU IC
- Registerd Design patent of IDEA (smart cap)

CERTIFICATE

- AWS Cloud practitioner Global
- CISCO Cybersecurity Certified
- Github Foundation Global
- OCI generative AI 2024 Global
- CISCO networking Certified
